Auditors' Report

For the period ending 31st December 2008

REPORT OF THE AUDITORS TO THE MEMBERS OF KUNSILL TA' L-ISTUDENTI UNIVERSITARJI

We were engaged to audit the financial statements of KSU - Kunsill ta' L-Istudenti Universitarji as of 31st December 2008. These financial statements are the responsibility of the Council's management.

Our audit was limited in scope as a result of certain inconsistencies in the preparation of accounting record and we were unable to fully satisfy ourselves by using our audit procedures.

In our opinion, except for the effect on the financial statements of the matter referred to in the preceding paragraph, the financial statements present fairly the financial position of the Council's affairs as at 31st December 2008 and of the surplus registered for the period 1st January 2008 to 31st December 2008.

Accounting Policies

For the period ending 31st December 2008.

a) Basis of Preparation

These financial statements have been prepared on the historical cost basis.

b) Revenue Recognition

Revenue relating to the sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, and no significant uncertainties remain regarding the derivation of consideration, associated costs or the possible return of goods.

Interest arising from the use by others of the Council resources is recognised when it is probable that the economic benefits associated with the transaction will flow to the council and the revenue can be measured reliably. Interest income is recognised as it accrues unless collectibility is in doubt.

c) Property, Plant and Equipment

- d) The Property, Plant and Equipment are stated at their Net Book Value that is, Cost less accumulated depreciation to date. Depreciation is calculated to write down the value of the assets over their estimated useful life. The annual rates used, which are consistent with those applied in previous years are:

		01/01/2008 to 31/12/2008
Buildings & Common Room		15%
Electronic Equipment		5yrs
Fixtures & Fittings		5yrs
Office Equipment		25%
Togi		8%

e) Inventories

Inventories are stated at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business. The cost of inventory is ascertained on weighted average basis and comprises all costs of purchase and other costs incurred in bringing the stocks to their present location and condition.

f) Trade Receivables

A provision is made for doubtful debtors based on a 2% provision on other trade receivables. Bad debts are written off during the year in which they are identified.

g) Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

In the opinion of the president, the accounting estimates and judgements made in the course of preparing these financial statements are not difficult, subjective or complex to a degree which would warrant the description as critical in terms of the requirement IAS 1 (revised).

Kunsill ta' I-Istudenti Universitarji

Accounting Policies

For the period ending 31st December 2008.

h) Impairment

At each balance sheet date the council reviews the carrying amount of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income immediately.

i) Financial Instruments

Financial assets and financial liabilities are recognized on the council's balance sheet when the company has become a party to the contractual provisions of the instruments.

Bank Borrowings

Finance charges are accounted for on an accrual basis and are shown with accruals to the extent that they are not settled in the period in which they arise.

Creditors

Creditors are stated at their nominal value.

j) Review of operations

The profit this year was higher than previous years due to the fact that KSU increased corporate sponsors, increased the rent of shops in student's house and as we have a new showcase that we rent out. We have also settled a previous dispute with one of the outlets in student's house and thus, we are receiving an extra €2,390.46. Above this, our events, namely Freshers' Week in October and Careers' Convention in November were highly successful.

Notes to the Accounts

For the period ending 31st December 2008.

1. Revenue

Balance due from a sponsor as per agreement reached in 2000 has been regularly paid annually except the year under review. The treasurer has assured us that the omission of last year's contribution was due to an oversight and efforts are being made to recoup such income in 2009. Henceforth it was decided that no provision is made to account for the missing income of EUR 7,000 on a cash basis.

2. Fixed Asset Schedule
